## The Prowise philosophy

Our many years of experience is embodied in our highly customer-oriented philosophy. A promise is a promise and customer satisfaction are not just empty words, but the very foundation of our organisation. If you choose Prowise, you will not only get the solution offering the most advantages. You will be getting the best care and support that you could wish for.

A motivated team of 20 professional staff is happy to assist you.  
With our own service - and assembly department, we can keep waiting times and response times short.  
With Prowise the continuity of your organisation is in safe hands.

We act out of consideration for the customer. By investing more time and energy into our relationships, we know what the real preferences and needs are. Better advice and higher levels of customer satisfaction are the logical consequence. The customer always comes first. That is our philosophy!

## The advantages of a Prowise multi-touch monitor

Prowise has developed a unique series of modular multi-touch monitors.

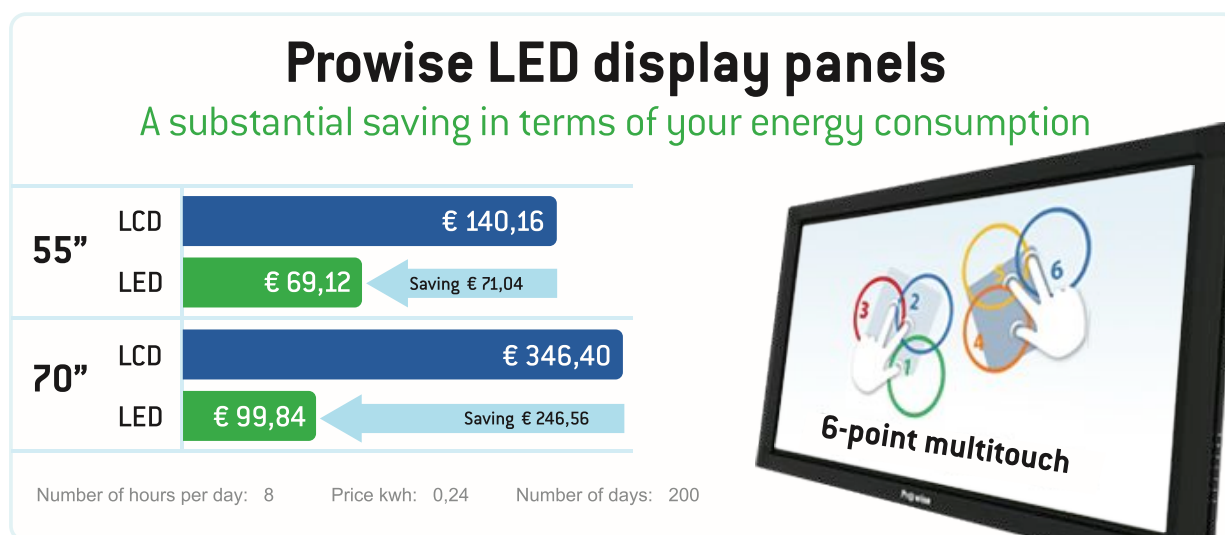

The image quality and sound are among the best that are available. Writing quality and controls are outstanding thanks to the latest generation of touch technology.

We have listed the main advantages for you below:

### LED

Energy savings of up to 75% are possible with our LED screens. This state-of-the-art technology supersedes LCD. In addition to energy saving, LED offers advantages in terms of design, weight, image quality and heat build-up. Partly due to the large energy savings, Prowise LED screens are a bit more environmentally friendly.

## Touch Module

When developing our touch module, writing, ease of use, quality and durability were a top priority. The latest generation of IR Pro technology delivers optimal performance on all these points. The main advantages of the touch module at a glance:

- ✓ 6 or 10-points multi-touch and multi-writing
- ✓ No delay when writing
- ✓ Perfect writing quality when writing quickly and slowly
- ✓ Optimal range right across the entire screen
- ✓ Use of highly durable and reliable LED technology
- ✓ Automatic calibration
- ✓ No driver needed for Microsoft Windows XP, Microsoft Windows 8 and Apple OS X
- ✓ Sunlight-resistant

## Lifetime anti-scratch warranty on the anti-reflective glass surface.

The anti-reflective glass guarantees convenience and durability. It is made of 4 mm scratch-resistant safety glass. Because no overlay is used and the glass surface has a black passe-partout, it guarantees perfect control. Particularly if you are going to be using Windows 8.

## Enclosure

Our innovative enclosure is made of a durable metal material. The dust-proof enclosure will extend its service life, because no fans and filters are required. We have even found space for four high-quality speakers.

## Modular system

The unique modular system makes replacing components and upgrading functionality extremely straightforward. The service life of the monitor is significantly extended as a result and servicing time is shortened. The modules have been carefully positioned. Consequently, all frequently used connections can be accessed from the side. All modules are interconnected. This makes it possible to work with a single remote control and can be switched on/off with a single push of a button.

All reachable from the side

## HD PC Module

Thanks to the powerful Core i5 PC module, everything has been neatly integrated into the monitor. This means you will not be inconvenienced by loose hanging cables and everything is perfectly compatible. Besides an extremely low power consumption, the PC module is ultra-quiet thanks to its use of smart cooling. The powerful graphics card plays video images up to Blu-Ray quality, and ensures stunning image quality and is also fitted with a VGA connector for connecting an external monitor.

Removable HD PC module

## DVD Module

The fully integrated DVD module operates independently of the PC. Without installing any software, the DVD player plays films, music, photos and audio books on CD and DVD. The DVD module can be controlled by the same remote control or using the buttons on the side.

Intel CORE i5

## 100% satisfaction

Unprecedented innovation, high quality, an excellent service, pioneering prices and the best warranty terms. Combined with our scrupulous customer care, we ensure that you too will be a satisfied Prowise customer. We strive for 100% satisfaction, so that not only will you come back to us, but will also convince a colleague that they can benefit from Prowise too. For us these are the necessary ingredients for a long and fruitful collaboration. We do not offer a 100% satisfaction guarantee for nothing.

## Reliable Quality

Our display panels are made to continue to work for as long as possible. Our designers and engineers make every effort to ensure that each display panel is precision-manufactured from high-quality components. This ensures that we can guarantee intensive use and long service life. You can even leave the display panel on without any problems 24 hours a day.

## CE Certification

Thanks to our stringent internal requirements, which we stipulate in respect of our products, we passed the CE certification with flying colours. Our display panels have been extensively tested for radiation sensitivity, safety and quality.

## Sustainability and components

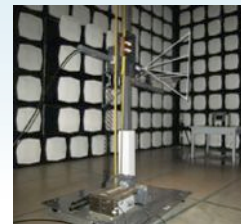

Sustainability begins with manufacturing and the choice of components. All of the components that are used are high-quality and are often from top brands such as Intel, Samsung and Sony. The enclosure is made entirely of metal and the anti-reflective glass is made of 4 mm thick, scratch-resistant safety glass. We only use A-grade LED panels. The quality and durability is high-grade. All electronic components are extensively tested for quality, heat resistance, life expectancy and EMI radiation.

Age simulation

Transportation testing

EMI shielding test

## Outstanding warranty

Our high quality standards are reflected in an excellent warranty. Prowise offers a 3-year, all-in, on-site warranty. Where else would you find that?

# Prowise Presenter

easily create stunning presentations

Prowise Presenter is simply beyond words.  
So...

- ➔ Try it free without obligation and experience how easy it is to use.  
Or
- ➔ Ask for a no-obligation demonstration on your premises or in our showroom.

With Presenter you can create powerful presentations in a snap. It is extremely user-friendly and will bring your presentations to life. Add videos, photos, interactive building blocks and tools from your area of expertise. Saving and sharing presentations with colleagues has never been so easy. Presenter is accessible from any location online.

**"With the Prowise Presenter we have an in-house world premiere!"**

## Free of charge Prowise Presenter Free

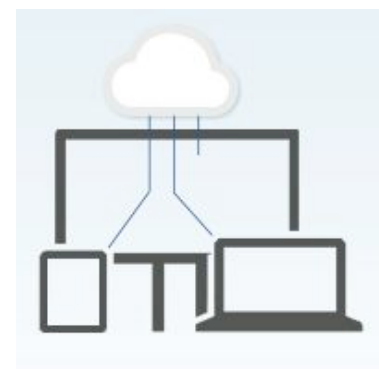

We basically offer free use of Prowise Presenter. Without any in-depth instructions, you will be able to create presentations. No ICT knowledge is required. Anywhere that the internet is available, you can access your presentations.

## Platform-independent

Prowise Presenter is hardware-independent and can therefore also be used on any other device (laptop, PC, etc.).

## Accessible online

Your own environment with your own presentations available everywhere. Simple, accessible; at your business or at home. No software installation is required. No versioning problems.

## Straightforward

No ICT knowledge is required.

## Share presentations and collaborate

Experience the power of sharing. Handle your work preparation efficiently. Save and share at different levels: personal in a screened section, share with colleagues or at community level for everyone. There is unlimited storage in Presenter Pro. In Presenter Free up to 5 presentations.

## Online full multi-touch up to 32 points

Enables excellent writing possibilities involving several people all at the same time. The touch points can even be increased from 4 to 32 points.

## 140+ quality tools

Just as a carpenter uses a tool to be able to work better and more effectively, so having the right tool for a presenter is also a real pleasure.

## Step into the world of 3D

Immerse yourself in the world of 3D and discover new perspectives. A world of possibilities is at your disposal. Only combined with a Presenter Pro subscription.

## PDF and Office import

Are your reading materials that are currently available holding you back from making the change? We can make it even easier for you with our import module. Now with Microsoft Office, PDF and OpenOffice import. Now available with Smart Notebook. Only combined with a Presenter Pro subscription.

## Administration Module

The administration module allows the (upper school) ICT technicians to monitor usage at teacher level. Only combined with a Presenter Pro subscription.

## Pro Connect

Often in classrooms the screen is not the only device that is being utilised. Tablets are assuming an increasingly important place. With ProConnect a tablet can communicate with a digital display panel in the classroom. Your mobile phone is turned into a voting device. Without any extra investment. Without technology. In the Prowise simple way.

## Presenter in a nutshell

<p><b>Writing and drawing</b> Writing and drawing tasks are completed using the pencil, calligraphy pen or highlighter tool.</p>	<p><b>Online storage</b> Save at three different levels: Personal, My Company or Community.</p>	<p><b>Designing presentations</b> Design and build your own presentation using tools, interactive modules, videos and illustrations and share them easily with your colleagues.</p>	<p><b>Easily add videos</b> Easily add videos from YouTube. Rotate and scale your videos for an attractive composition for your presentation.</p>
<p><b>Ready-to-use tools</b> Combine the tools and create an effective presentation.</p>	<p><b>Backgrounds and illustrations</b> Make your presentation unique and appealing with high-quality backgrounds and illustrations.</p>	<p><b>Interactive presentations</b> Easily add interaction using the modules.</p>	<p><b>Write lines</b> Writing on the display panel can be varied with a variety of adjustable lineations.</p>

## Prowise Presenter training sessions.

Prowise provides you with the opportunity to train your staff to be able to make best use of the Presenter. Using our implementation, that we draw up in collaboration with you free of charge, we ensure that the entire team gets to grips with the package. For more information you can contact one of our advisors.

## Prowise Presenter 360° implementation plan

Do you want to make best possible use of our software combined with your digital display panel? Then ask our specialists about the Presenter implementation plan. Give your colleagues the skills to enable them to make best use of the ICT capabilities of the Presenter.

# Pro Connect

The solution for interaction between "any device" and the digital display panel.

## What is Pro Connect?

Pro Connect offers ready-to-use interactive applications allowing you to immediately get down to work, in an extremely practical and "Prowise simple" manner.

Pro Connect looks beyond just the hardware. It answers the question. What does a tablet or any other device add to my teaching? Tablets, smartphones, notebooks or desktop computers, it always works everywhere, wirelessly or over your fixed network.

## Pro Connect

The five applications

### 1.Connect:

Send information back and forth.

### 2.Vote:

Provide immediate feedback and collect data.

### 3.Competition:

Practice easily using various forms of play.

### 4.Collaborate:

Gather opinions and activate knowledge.

### 5.Remote:

Remotely control your presentation.

## Presenter on tablets

Now also experience the fantastic possibilities of Prowise Presenter on tablets

- Anytime, anywhere: your presentations at your fingertips
- straightforward communication between tablets and the digital display panel
- send presentations and assignments back and forth, questions and answers, wirelessly and easily
- use your tablet or smartphone as a voting box to test knowledge to generate data. The quiz mode makes this possible.
- Quickly look within the community for ready-to-use quiz lessons
- soon to be available in the Apple App Store for the iPad 2 and 3 and in Google Play for Android 3.1 and higher with a minimum resolution of 1024x768
