

Deskstar™ 7K2000

3.5-INCH HARD DISK DRIVES

HITACHI
Inspire the Next

Huge capacity, highest 7200 RPM reliability, plus outstanding performance for desktop storage

Highlights

- > 2TB¹ capacity
- > 7200 RPM performance
- > Up to 10% idle power savings over previous generation product
- > Halogen-free design for eco-friendly footprint
- > Built on award-winning proven design

Applications

- > Consumer and commercial computers
- > External storage
- > PC gaming
- > Video editing arrays

Features and Benefits

	Feature / Function	Benefits
Capacity	2TB	Highest capacity available in a single hard drive
Reliability	Thermal Fly-height Control (TFC)	Better soft error rate for improved reliability and performance
	Head load/unload	Protects disk during non-operation
	ECC and CRC protection	Data integrity enhanced throughout circuits
	SMART command transport	Adaptive error correction
Power	Internal thermal sensor	Improves data integrity
	Advanced Power Management	Reduces power during idle periods
	HiVERT™ technology	Best-of-breed power consumption
Performance	32MB cache buffer	Faster data processing
	SATA 3Gb/s interface	

2TB | 7200 RPM | SATA 3Gb/s

Highest capacity and reliability with a proven design

The Deskstar™ 7K2000 hard drive delivers a colossal two terabytes of storage capacity and 7200 RPM performance in a standard 3.5-inch form factor. Now in its fourth-generation, the 7K2000 is based on a robust mechanical design that continues to set the industry standard for quality and reliability. Through a patented ramp load/unload design, data heads are moved to a ramp away from the disk where they rest during periods of inactivity. This greatly minimizes the risk of shock damage by eliminating direct contact between the heads and disks, reducing wear and heat while improving overall drive reliability and power efficiency. The Deskstar 7K2000 also incorporates thermal fly-height control (TFC) technology which uses an integrated heating element to precisely maintain a constant fly-height throughout read and write operations to enhance overall data integrity, drive performance and reliability. The 7K2000 features industry-standard native 512-byte sector formatting, ensuring compatibility with mainstream computing environments.

Outstanding energy efficiency

The Deskstar 7K2000 offers an exceptional blend of capacity and power efficiency, with idle power savings over previous generation products up to 10%. On a watts per gigabyte basis, idle power has improved over 120%. Leveraging eighth-generation power management technology, including power-saving innovations like HiVERT™ technology, this drive delivers best-in-class power management and thermal emissions to help manufacturers meet energy compliance targets and extend drive life.

Innovation for a more sustainable environment

The Deskstar 7K2000 demonstrates Hitachi ecological leadership with its halogen-free design and power-efficient operation. Both these features helped qualify the drive for the Hitachi EcoTrac classification, which identifies products that minimize environmental impact in the areas of product design, manufacturing, operation and disposal.

Specifications

Model(s)	HDS722020ALA330
Configuration	
Interface	SATA 3Gb/s
Capacity (TB) ¹	2
Sector size (bytes)	512
Max. areal density (Gbits/sq. in.)	292
Performance	
Data buffer (MB) ²	32
Rotational speed (RPM)	7200
Media transfer rate (Mbits/s, max)	1700
Interface transfer rate (MB/s, max)	300
Seek time (ms, read, typical)	8.2
Reliability	
Error rate (non-recoverable, bits read)	1 in 10 ¹⁴
Load/unload cycles (at 40°C)	300,000
Availability ³ (hrs/day x days/wk)	24x7
Acoustics	
Idle (Bels, typical)	2.9
Power	
Requirement	+5 VDC (+/-5%) +12 VDC (+/-10%)
Startup current (A, max.)	0.7 (+5V), 2.0 (+12V)
Idle (W)	7.5
Physical size	
z-height (mm)	26.1
Dimensions (width x depth, mm)	101.6 (+/-0.25) x 146
Weight (typical, g, max.)	740
Environmental (operating)	
Ambient temperature	5° to 60° C
Relative humidity (non-condensing)	8% to 90%
Shock (half-sine wave, G (2ms))	70
Vibration, random (G RMS 5 to 500 Hz)	0.67 (XY)
Environmental (non-operating)	
Ambient temperature	-40° to 70° C
Relative humidity (non-condensing)	5% to 95%
Shock (half-sine wave, G (1ms))	300
Vibration, random (G RMS 2 to 200 Hz)	1.04 (XYZ)

¹ One GB is equal to one billion bytes and one TB equals 1,000GB (one trillion bytes) when referring to hard drive capacity. Accessible capacity may be less.

² Portion of buffer capacity used for drive firmware

³ Intended for low duty cycle, non mission-critical applications in PC, gaming and external storage environments, which may vary from application to application. Note that customer environments may vary from application to application.

Hitachi quality and service

All Hitachi hard drives are designed to the highest quality standards with field-proven components. They are backed by Hitachi's worldwide technical support and integration services, enabling customers around the globe to bring their products to market quickly.

How to read the Deskstar model number

HDS722020ALA330 = 2TB, 32MB buffer

H = Hitachi

D = Deskstar

S = Series prefix

72 = 7200 RPM

20 = Full capacity—2TB

20 = Capacity this model, 20 = 2TB

A = Generation code

L = 26.1mm z-height

A3 = Interface, SATA 3Gb/s

3 = 32MB buffer

0 = Reserved
